¹ Certain Features only available in Commercial Editions.

² Annual Subscription: is defined as the right to use the specified program(s) in accordance with the applicable license metric and to receive Oracle Software Update License & Support for the specified program(s) for the term specified on the order.

³ **Oracle Premier Support for MySQL** is included in Annual Subscriptions (no extra cost)

⁴ Server: is defined as the computer on which the programs are installed. A Server license allows you to use the licensed program on a single specified computer.

⁵ Socket: is defined as a slot that houses a chip (or a multi-chip module), which contains a collection of one or more cores. Regardless of the number of cores, each chip (or multi-chip module) counts as a single socket. All occupied sockets on which the Oracle programs is installed and/or running must be licensed.

⁶ Non-MySQL products not included (can be purchased separately)

Pricing is "per Server", for 2 classes: Servers with 1-4 Sockets, and Servers with 5+ Sockets

For pricing for 5+ Socket Servers, [contact the MySQL Sales Team](#)

All installations of MySQL Enterprise Edition, Standard Edition, and Cluster Carrier Grade Edition must be licensed under an appropriate commercial agreement with Oracle, including deployments for production, development, testing, backup and disaster recovery. For further information regarding licensing, please [contact the MySQL Sales Team](#).
