Learn more about Oracle Database@Azure at Microsoft Ignite

November 15, 2023 | 2 minute read

Andrea Marchesini
Director of Product Management OCI Multicloud Platform

The newly expanded partnership between Oracle and Microsoft delivers Oracle Database@Azure, which gives customers direct access to Oracle database services running on Oracle Cloud Infrastructure (OCI) and deployed in Microsoft Azure data centers. Learn more at Microsoft Ignite, where Oracle is a sponsor with a booth, delivering multiple sessions.

Oracle Database@Azure

Oracle Database@Azure delivers all the performance, scale, and workload availability advantages of Oracle Database on OCI with the security, flexibility, and best-in-class services of Microsoft Azure, including best-in-class AI services like Azure OpenAI. This combination provides you with more flexibility regarding where you run your workloads. It also provides a streamlined environment that simplifies cloud purchasing and management between Oracle Database and Azure services.

For more information on the benefits of Oracle Database@Azure, see Oracle Database@Azure.

Oracle Database@Azure becomes available in the US East Azure region in December 2023, with expansions planned in more regions in calendar Q1 2024 and beyond.

Microsoft Ignite

At Ignite, we have the following sessions about Oracle Database@Azure:

- Oracle Database@Azure demo: See how Oracle Database@Azure works seamlessly with Azure capabilities like Azure Kubernetes with Oracle Database to deliver Oracle Database services on OCI in Microsoft Azure. Speaker: Pulkit Sindhwani from Oracle. November 15 at 5:30–5:45 p.m. PT.

- Multicloud with OCI and Azure – Oracle Database@Azure: Hear from Ray at Voya on how Exadata fits into your cloud migration strategy and powers your most critical apps. Speakers: Ravi Turlapati from Oracle, Stephen Cross from Oracle, and Ray Rascher from Voya Financial. November 16 at 2:45–3:30 p.m. PT.

- Migrate Oracle Workloads to Azure: Gain a practical, technical overview of best practices for migrating and operating your Oracle databases and related applications in Azure. Speakers: Ravi Turlapati from Oracle and Brett Tanzer from Microsoft. November 17 at 10:15–11:00 a.m. PT.

- Multicloud Delivers Business Results Faster and More Cost-Effectively: Hear how multicloud has increased business agility and innovation, reduced cost, and met regulatory compliance of global enterprises. Speaker: Leo Leung from Oracle. On-demand.

We hope to see you there!

If you're at Ignite, stop by our booth, #602, to chat with our multicloud experts and enter for the raffle of a Formula 1 hat signed by Max Verstappen. We look forward to seeing you at Microsoft Ignite!
